

Grow VC Group at Europe 14th Annual Retail Banking Forum in Vienna

Retail Banking Forum
12th & 13th October 2016 | Vienna, Austria

Digital disruption is hitting the financial services and changing the whole retail banking model. Alternative lending models are transforming the banking sector, creating both competitive threats and evolutionary opportunities for financial institutions. According to the 2016 World Retail Banking Report, 96 percent of banking executives agree that the industry is progressing toward a digital banking ecosystem.

The largest retail banking event in Europe 14th Annual Retail Banking Forum in Vienna on 12-13 of October will bring together top-caliber banking peers to discuss the hottest issues, such as fintech startups, transformation of the traditional retail banking model, technological innovation and changing customer demands.

Jouko Ahvenainen, the Executive Chairman of Grow VC Group, will be presenting at the Forum, discussing *the hybrid finance models and how the emerging API ecosystems* will change the way companies cooperate in finance. The audience will take away new ideas on how to capitalise on technologies which compliment their portfolios and create sustainable methods for continuous innovation.
